

**BAVARIAN LIONS – CORK***White-blue, hand painted*

Design: based on Franz Xaver Lorch

height 9 cm · product no. o2.685

Even if we were to formally categorise the hierarchy of Bavarian heraldic lions by circa ten different sculpture sizes, this would certainly not extend to a qualitative classification. On the contrary. This miniature lion, just nine centimetres tall, delights the observer with its unique artistic power. The execution of the eyes, ears, muzzle and paws, after Franz Xaver Lorch's design, is so meticulous that this practical bottle stopper is also a miniature masterpiece.
